

IFRS Transition Program for the Nigerian Manufacturing Sector

Get your IFRS project completed on a timely and cost-effective basis

Program Begins in June 2011. Registration closes 3 June 2011

IFRS Bulletin: Nigerian Manufacturing Sector

IFRS Transition Program for Manufacturers Begins June 2011

The IFRS challenges and timelines facing Nigerian Manufacturing companies are daunting. We have had the opportunity to speak with many of you over the last few months. You have told us about your concerns about the optimal and most cost-effective approach to move from SAS to IFRS. We have listened to you and are very pleased to announce our special "*IFRS Transition Program for Nigerian Manufacturers*".

Ad - The Guardian - Thursday, 12 May, 2011: [Download by Clicking Here](#)

This **Comprehensive IFRS Transition Program** includes the following highlights:

- **IFRS Expertise and Support** - Provided by the international IFRS experts from Issues Central, Inc. (Toronto, Canada) and local IFRS transition assistance with deep SAS knowledge and manufacturing sector experience
- **Structured Hands-On IFRS Workshops** - Held in Lagos over the period from June 2011 through November 2011 help to enforce *Discipline* to complete the IFRS transition on a timely basis
- **IFRS Software Tools** - (IFRS PARTNER for the Manufacturing Sector) to aid in the transition to IFRS - Manufacturing specific materials, analytical tools, and financial reporting capabilities
- **Optional Custom Consulting and Assistance** - To provide additional assistance as required for each company registered in the program

The **Program Benefits** include:

- **Dramatic Cost Reductions** - Save millions of Naira on your IFRS transition costs as compared to traditional consulting engagements. The program's unique approach provides an optimal blend of group workshops, one-on-one support, do-it-yourself activities, and supporting software tools to drive down the cost of IFRS transition while maintaining quality.
- **Jump Start Your Project Now** - Accelerate your project efforts in just a few weeks to move from SAS to IFRS by January 1, 2012.
- **Develop IFRS Financials with Disclosures** - Develop IFRS compliant financial statements and disclosures including your January 1, 2011 IFRS Opening Transition Balance Sheet with IFRS note and your Pro-Forma Q1 2012 IFRS Financials with SAS Comparatives and IFRS notes.
- **Document and Substantiate Your IFRS Decisions** - Assist you in the development of IFRS reporting materials required for regulators and external auditors.
- **Work With Industry Peers** - Collaborate and interact with other manufacturing sector personnel to further enhance your IFRS project decision making and knowledge.

Registration is Limited: The Program begins the week of 6 June, 2011 and company enrolment is limited.

Registration Closes: Friday, 3 June, 2011.

Early Enrolment Savings of 10%: Register with initial payment by Friday, 27 May, 2011 and save 10%.

The time for talking about IFRS is over. It is now time to get it done.

Limited Enrolment means Act Now to Avoid Disappointment:
